

Caregiver Observation Log

Internal Prototype

Non-PHI

P2 A1

Stage 1 Concept

⚠ Internal Use Only

Educational tool only. Not diagnostic. Not treatment plan. Not crisis plan. Not medication advice. Not referral pathway. Not a substitute for professional evaluation. **PCP / medical home remains the clinical gatekeeper.**

Do not include names, DOB, insurance IDs, addresses, school names, provider names, or other identifying information in this prototype.

Date

Time

Setting — Where were you? What was happening?

What happened before? — 30–60 minutes before the behavior

What did your child do? — Describe the behavior neutrally

⚡ Possible stressors or triggers — Sensory, fatigue, transition, hunger, overstimulation?

Caregiver Reflection

What helped? — Even a little

What did not help? — Or made it worse

What did you notice? — About your child or yourself

Is there a pattern? — How often does this happen?

Questions to discuss with existing care team — PCP, therapist, or school team, if appropriate
